## Section 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

Substance Name / Trade Name: **Plasma 2x (human-tech) DNA free**

Index No.: not available

EC-No.: not available

CAS-No.: not available

REACH No.: There is no registration No. for this mix.

Other names: not available

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

#### Relevant identified uses:

Use as laboratory reagent – for scientific research and development

#### Uses advised against:

Not for consumer use.

### 1.3 Details of the supplier of the safety data sheet

**Manufacturer / Supplier:** SensID GmbH

**Street/PO Box:** Schillingallee 68

**Country-Code/Postcode/City:** D-18057 Rostock

#### Point of contact for technical Support

**Phone / Fax / E-Mail**

+49(0)38137718201 / +49(0)38137718200 / E-Mail: support@sens-id.com

### 1.4 Emergency Phone No.

SensID GmbH +49 (0) 38137718201 (Reachability: on weekdays 8-16 o'clock)

## Section 2: Hazards identification

### 2.1 Classification

Classification according to Regulation (EC) No 1272/2008:

mixture contains < 1% EDTA; CAS No. 60-00-4

Corrosive/irritant effect on the skin – Category 2

Severe eye damage / irritation – Category 2A

### 2.2 Label elements

Label elements according to (EC) No. 1272/2008

Pictogram:

Created on: 25.10.2018

Revised on: 29.01.2020

Valid from: 30.01.2020

Version: 02

Replaced version: 01

GHS07

Signal word: Attention

Hazard-determining components for labelling contains:

Hazard statements:

H315 - Causes skin irritation

H319 - Causes serious eye irritation

Precautionary statements:

P332+P313 - If skin irritation occurs: Get medical advice/attention

P362 - Remove contaminated clothing and wash before wearing again

P264 - Wash exposed skin thoroughly after handling

P280 - Wear eye protection, face protection, protective clothing, protective gloves

P305+P351+P338 - If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

P337 +P313 - If eye irritation persists: Get medical advice/attention

Other labelling elements

EU notes on specific hazards:

R-phrases

R36/38 - Irritating to eyes and skin

S-phrases

S26 - After contact with eyes, rinse immediately with plenty of water and seek medical advice

S24/25 - Avoid contact with eyes and skin

S36/37/39 - Wear suitable protective clothing, gloves and eye/face protection

## 2.3 Other Hazards

Physical hazards

Harmless

Specific effects

No carcinogenic effects

No genetic alteration

No reproductive toxicity

No sensitization

---

## Section 3: Composition/Information on Ingredients

### 3.1 Substances

Any concentration specified as a range is used to protect confidentiality.

Main component of the substance

Substance name: Human plasma (technically modified)

Index no.: not available

EC no.: not available

Created on: 25.10.2018

Revised on: 29.01.2020

Valid from: 30.01.2020

Version: 02

Replaced version: 01

## **Impurities, stabilising additives and individual components**

Substance name: sodium chloride 0.1 – 1%

Index no.: not available

EC no.: not available

CAS No: 7647-14-5

### **3.2 Mixtures**

here are no additional ingredients which, according to the supplier's current state of knowledge and in the applicable concentration, are classified as hazardous to health or the environment and subject to notification.

---

## **Section 4: First aid measures**

### **4.1 Description of first aid measures**

#### **After inhalation**

Take him out into the fresh air. In case of respiratory arrest with additional oxygen artificial respiration. Immediately call a poison control center or doctor.

#### **After skin contact**

Immediately rinse with plenty of water for at least 15 minutes. Remove contaminated clothing and wash before wearing again. Immediate medical attention is required.

#### **After eye contact**

Immediately rinse thoroughly with plenty of water for at least 15 minutes, also under the eyelids. Immediate medical attention is required.

#### **After ingestion**

Immediately call a poison control centre or doctor. Never give water to an unconscious person. Do not induce vomiting without doctor's orders.

### **4.2 Most important symptoms and effects, both acute and delayed**

The main known symptoms and effects are described on the label (see section 2.2) and/or in Chapter 11.

### **4.3 Indication of any immediate medical attention and special treatment needed**

Symptomatic treatment.

---

## **Section 5: Firefighting measures**

### **5.1 Extinguishing media**

Suitable extinguishing media: water spray, Carbon dioxide (CO<sub>2</sub>), foam, dry chemicals

Unsuitable extinguishing media: not available

### **5.2 Special hazards arising from the substance or mixture**

Hazardous combustion products: No further known.

### **5.3 Advice for fire fighter**

Wear self-contained breathing apparatus and protective clothing.

Created on: 25.10.2018

Revised on: 29.01.2020

Valid from: 30.01.2020

Version: 02

Replaced version: 01

---

## Section 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions

Ensure adequate ventilation. Avoid contact with skin, eyes and clothing.

Personal protective equipment

Use personal protective equipment.

### 6.2 Environmental precautions

Avoid further leakage or spillage if safe to do so. Do not discharge into drains or rivers.

### 6.3 Methods and material for containment and cleaning up

For containment

Prevent further leakage or spillage if safe to do so.

For cleaning up

Soak up with inert absorbent material

### 6.4 Reference to other sections

See section 12 for additional information.

---

## Section 7: Handling and Storage

### 7.1 Precautions for safe handling

Avoid contact with skin, eyes and clothes. Wear personal protective equipment.

### 7.2 Conditions for safe storage, including any incompatibilities

#### Information on storage conditions

Store in a dry, cool and well-ventilated place. Store in properly labelled containers, avoid direct sunlight. Keep container tightly closed until ready for immediate use. Opened containers must be carefully closed and stored upright. Do not store in unmarked containers.

#### General hygiene considerations

Handle in accordance with good industrial hygiene and safety practice.

---

## Section 8: Exposure controls/personal protection

### 8.1 Control parameters

Occupational exposure limit values and/or biological limit values Occupational exposure limit values (OELs) Germany

Contains no substances with occupational exposure limits according to Regulation (EC) No 1272/2008.

### 8.2 Exposure controls / Personal protective equipment

Created on: 25.10.2018

Revised on: 29.01.2020

Valid from: 30.01.2020

Version: 02

Replaced version: 01

## Suitable technical control equipment

Provide adequate ventilation, especially in confined areas.

## Personal protective equipment

**Eye / face protection:** Safety glasses with side protection.

**Skin protection:** Impermeable gloves.

**Other skin protection:** Light protective suit

## Respiratory protection

With aerosol or mist formation. Filter device (EN141) type E against acidic gases.

## Heat / Cold protection

No action needed.

## Environmental exposure controls

No data available.

## Section 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

|                                               |                             |

| Melting point/Freezing point:                 | Mixture has not been tested |
| Boiling point / boiling range:                | Mixture has not been tested |
| Flash point:                                  | Mixture has not been tested |
| Evaporation rate:                             | Mixture has not been tested |
| Flammability (solid, gas):                    | Mixture has not been tested |
| Upper/Lower flammability or explosive limits: | Mixture has not been tested |
| Vapor pressure:                               | no information available    |
| Vapor density:                                | no information available    |
| Relative Density:                             | no information available    |
| Solubility:                                   | no information available    |
| Partition: n-octanol/water:                   | no information available    |
| Decomposition temperature:                    | no information available    |
| Auto-ignition temperature:                    | no information available    |
| Viscosity:                                    | no information available    |
| Explosive properties:                         | Mixture has not been tested |
| Oxidising properties:                         | Mixture has not been tested |

### 9.2 Other informationSonstige Angaben

No data available

## Section 10: Stability und Reactivity

Created on: 25.10.2018

Revised on: 29.01.2020

Valid from: 30.01.2020

Version: 02

Replaced version: 01

**10.1 Reactivity:**

Not known under normal environmental conditions.

**10.2 Chemical stability:**

Stable under normal conditions and under the temperature and pressure conditions expected during storage and handling.

**10.3 Possibility of hazardous reactions:**

No information available.

**10.4 Conditions to avoid:**Do not mix with ammonium oxides (NO<sub>x</sub>).**10.5 Incompatible materials:**

No information available.

**10.6 Hazardous decomposition products:**

None in normal processing.

**Abschnitt 11: Toxicological information****11.1 Information on toxicological effects**

| 12.1 Ecotoxicity:                         | according to 1272/2008/EC: Not to be classified as hazardous to water                 | EC50 bacteria (16 hours)<br>28 mg/l<br>MSDS<br>LC50 fish (96 hours)<br>Minimum value: 41 mg/l<br>Maximum value: 532 mg/l<br>(GESTIS-substance database)<br>EC50 crustaceans (48 hours)<br>Minimum value: 113 mg/l<br>Maximum value: 113 mg/l<br>(GESTIS-substance database) |
| 12.2 Persistence and degradability:       | The methods for determining biodegradability are inorganic substances not applicable. | Not easily biodegradable.                                                                                                                                                                                                                                                   |
| 12.3 Bioaccumulative potential:           | No data available                                                                     |                                                                                                                                                                                                                                                                             |
| 12.4 Mobility in soil:                    | No data available                                                                     |                                                                                                                                                                                                                                                                             |
| 12.5 Results of PBT- and vPvB-assessment: | No data available                                                                     |                                                                                                                                                                                                                                                                             |
| 12.6 Other adverse effects:               | Weak Water endangering (AwSV)                                                         | WGK 2: hazardous to water<br>Do not allow to enter ground water, water bodies or sewage system.                                                                                                                                                                             |

**Section 13: Disposal considerations****13.1 Waste treatment methods**

Must not be disposed of together with household waste. Do not discharge into drains.  
 Hand over hazardous waste collector or take to hazardous waste collection point.

**Treatment of contaminated packaging**

Disposal according to official regulations.

**Waste code according to Waste Catalogue Ordinance (AVV)**

## Special precautions

Collection of small quantities: Do not put waste in sinks or bins. Place in collection container for liquid organic residues. Collection containers must be clearly labelled with the systematic designation of their contents. Keep containers in a well-ventilated place. Hand them over to the competent authority for disposal.

## relevant EU or other provisions

Not required.

---

## Section 14: Transport information

Transport information is omitted as no special conditions apply.

---

## Section 15: Regulatory information

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

**Regulation (EC) No 648/2004 (Detergents Regulation):** listed  
There is no further listing in the relevant European Union (EU) regulations.

#### National regulations Germany:

##### Water hazard class

WGK 2 (List classification): hazardous to water

TRGS: ASR A1.3 Observe eye protection

TRGS 201, TRGS 400, TRGS 600, TRGS 500, TRGS 509, TRGS 510, TRGS 800

#### Other relevant regulations

The substance is classified and labelled according to the CLP Regulation: GHS07

Signal word: Attention

REACH Art. 57: is not included

### 15.2 Chemical safety assessment

DGUV Regel 112-195

Use of protective gloves Updated reprint October 2007

## Section 16: Other information

The information in this SDS is provided in good faith based on our knowledge, but they do not constitute an assurance of product properties and do not establish a contractual relationship. The information contained in this SDS should not be considered as exhaustive and only serve as a guide. All materials and mixtures can harbour unknown hazard and should be used with care. Since conditions of use of the product are not under the control of SensID GmbH, it is the duty of the buyer/user to determine the necessary conditions for the safe use of the product. SensID GmbH will not be liable for any damages resulting from handling or contact with the product.

#### Changes compared to the last version:

No change, version 01.

Section 3 Composition changed, version 02.
